## The Daily Standard.

Monday, July 17, 1871. Railway Coast Route Survey.

We are glad to learn that it is the in tention to have the coast explored this season to find the best route through which to bring the railway to the Pacific. Now it is a notorious fact that the interfor of the Mainland can be entered from Howe's Sound, Burrard Inlet and the Valley of the Fraser, and also via Bentinck Arm, Deau's Canal, and Skeena,and that with more or less labor and expense a railway may be started from aither of those points. The survey then of the respective routes from those points can only be for the object of determining with accuracy where to carry a railway, and not to discover passes through which to build the railroad. It is quite different, however, with the stretch of country between Bute and Knight's Inlets. Whether a railway can be carried from Johnson Straits to the interior from the coast between these Inlets is practically nedetermined. The coast range there is very high, ranging from 2,000 to 6,000 feet; and as it is entirly unknown, will require careful explorations to determine how the Straits can be reached.

According to Waddington's account the Government proposition with regard to the repairs of Front street, a resolution was agreed to, "That the President of this Council inform the Government that the Municipal Council inform the Government of the purpose of reconsidering the council information with regard to the repairs of Front street, a resolution was agreed to the repair getting from the plain behind the Casgetting from the plain behind the Casgades into the Valley of Bute Iulet or
Homathoo river. He says "the Bute
trail cuts through the Cascade Moungaids by a deep valley studded with rich
Tront Street, as contained in their letter
dated, December 9th, 1869, but in so doing
in no way reliminish their right to the water
frontage." The terms proposed by the Government were, that they place the whole of
Front street in a thorough state of reasing pottoms, affording plentiful pasture and feet : from which point forward to the not yet made their appearance in the Fraser plain it was free from snow for 25 miles and the fishermen are growing apprehensive of a short crop: n February 1862." Now this may be all very true; but it is unsettled whether the valley of the Homathco does not overflow, and in that case the question arises whether it would not be unfit for a railway. Even if it were fit from PR. T. J. MILLS BOWLEN WILL Waddington Harbor into the interior, it will be absent several weeks. a railway. Even if it were fit from is undetermined whether Johnson Straits could be reached by climbing along the steep walls of the Inlet. Hence the prevailing idea is that the railway if it comes via Johnson Strait, must come over the mountains, and not down the Inlet. Such we assume to be the fact and in consequence we are the more anxious to have that country very thoroughly explored. For if it is a possible thing to bring the railway to Johnson Straits so as to come down the east coast of the Island, it must be done. If It cannot, the next place is Howe's Bound or Burrard Iulet. But on behalf of the Island we sincerely hope that the CONFEDERATION DAY first exploration that will be thoroughly made will be that part of the coast route

between Bute and Knight's Inlets. THE CARPET-BAGGER ORGAN.-That political trio, Messrs. Seelye, Robson & Higgins, who run the Carpet-bagger orgen, bave in their Sunday morning issue again reiterated the statement that Mr. DeCosmos said at the meeting at Alhambra Hall, "To hell with Confederation." and that scores of respectable people recollect the circumstance. Now, neither of the precious trio were among the respeciable people at the Albambra meeting. For Mr. Seelye was in Cariboo at the time, and returned shortly after, as his services were not very acceptable to the Sentinel's proprietors. Mr. Robson was publishing a sheet in New Westminster. So be was not at the meeting. Mr. Higgins was in San Francisco; and when he got a telegram from here that Helmcken was runsing against Confederation and for Appexation, and that DeCosmos was for Confederation, be (Higgins) telegraphed back, "Support them both !" Just MALT VINEGAR in cases and 2 gal. Jars, magine Master Higgins, fresh from his CURRIE POWDER in 1 and 1 pints, tour to Ottawa, sending instructions to FINE TURKEY FIGS in tins, support an Annexationist on one side, and a Confederationist on the other! and both in same constituency! The three worthies not being here at the time of the meeting, could know nothing personally of what occurred at it; hence, we challenge the Carpet-bagger organ to give the name of any of the "scores of re-spectable persons" who heard Mr. De-Cosmos make the alleged assertion. More, we defy that mendacious sheet to give the names of any of the "scores of respectable citizens" who will affirm that they ever heard such an utterance from his lips. More still-until it does so, we iely charge the sheet in question with uttering what it knows to be wholly laise. In the next place, we are prepared to produce scores of respectable who will affirm that Mr. De-Cosmos never uttered such a remark
at the meeting, but on the contrary,
asserted that, "win or lose, he would never back down from Confederation." We will, however, as soon as we have time to ransack the files of the British Columbian, the Colonist, etc., produce extracts to show that Mr. Robson did back down from Confederation, and had his paper noted as advocating Annexa-tion; and that Mr. Higgins did the same thing. The latter even went so far as to apolegise to the Canadian Government for having done so, in the hope of being subsidized so as to outlive the Columbian; but Sir John A. Macdonald, reposing every confidence in Gov. Musgrave, re-fused to subsidize the concern at that time; though it might not be difficult to show how the concern was assisted afterwards. As for Mr. Seelye, it is a notorienafact that after first espousing Confederation, he "turned tail" and solicited tions to support an Annexation paper,—and even expressed his intention of going to San Francisco for the same parpose, as Confederation, in his opinion, was hopeless. Now he claims to be a "Simon Pure" Confederate, and boasts

that he will have an office within a month.

We hope he will get it, if it is only Any neglect on the part of our Carriers to deliver the STANDARD at the proper time

ROST. SMITH.

Lytton, B. C., June 22, 1871.

To the Electors of Yale-Lytton District. Four Good Plain Cooks, CENTI-EMEN:—I have the honor to acknowledge
the recespt of your requisition, and in accepting
the honor you wish to confer on me, I will endeavor, to
the best of my ability, to carry out your wishes and
syminor. the best of my ability, to carry out your wishes and opinions.

I am not in favor of pensioning the officials, and will advocate the repeal of the Permanent Civil List Act. I will also vote for the repeal of the Qualification and Registration of Voters' Acts, as they are, in my opinion, unjust and unsuited to the people of this colony. I will resist any attempt of monopoly. I am in favor of an enlarged system of education.

In conclusion, I assure you that it will be my duty to advocate economy in every department of the Government, and to suppor that policy best calculated to benefit the colony, that I will act in unison with the liberal and progressive party, whose principle it is to extend the power of the people and to remove those injurious laws, which are so degrading to the community.

I have the honor to be, gentlemen,

Yours very respectfully,

Cariboo Dominion Day Celebra-

The 1st of July was enthusiastically cele-brated in Barkerville. A commodious platform, decorated with evergreens and scarlet bannerets bearing gilt maple leaves, afforded accommodation to the speakers and musi-cians, together with a number of spectators. At 10 a. m. the explosion of a torpedo gave notice that the proceedings of the day were about to commence, when Mr. J. H. Todd made a few remarks, and proposed three cheers for the Queen. The National anthem having been played, Mr. J. S. Thompson de-livered an address, and at its conclusion proposed three cheers for the Dominion. At THE CITY OF RAGUSA.—This diminutive noon a royal salute was fired, and during the little craft, the safe arrival of which at day a large number of choice musical selecas were performed in good style by the bend. A performance by the Amateurs, and general fifumination, wound up the pro-

ceedings of the day.

The sports commenced at 11 o'clock, and were continued on until 7 p. m., and comjumping, running, throwing the stone, horse

There was a dramatic performance in the evening, and at its close the illumination mmenced. They produced a fine effecteral strangers went in from the surround-

ing creeks to witness the affair. dings were wreathed with evergreens, and a number of very handsome devices were exhibited. Messrs. Oppenheimer's store, the Assay Office and the Antelope attracted much attention. The Assay Office displayed a handsome Crown, with the letters V. R., and wreaths adorned with flowers and ribbons. On the Engine-house and Theatre were a her Victoria freight and took in the cargo of the left arrangement of hooks, ladders, axes the G. S. CARIBOO SQUAPS .- The McGinley troupe has given a farewell performance in Barkerville. Mr. W. Stephenson and a Chinaman were caught with a cave of the Brouse Co.'s ground, and were severely bruised. Freight is arriving fast—the first ox teams got in on the 5th. Our Mayor had arrived on William | wo weeks ditto. . . Creek. John Baumgarten was fined \$50 for giving "Gentle Annie" liquor, which was rived. Dominion Day celebration appears to have been a great success (see report elsewhere). There were \$969 75 collected in subscriptions, for entrance fees, \$112; total, \$1,081 75. (Halo shame, Victoria?) Disbursements in prizes and expenses, \$929 62. The balance was donated, \$50 to the hospital; \$50 to the fire brigade; purchase of a Do-minion flag, \$52. The 4th of July was ushered in with the explosion of a torpedo; the usual salutes were fired, and a few athletic games, with a performance at the Theatre in the evening. At Van Winkle there was a similar performance.

ZEALOUS ARRIVED .- The new row boat Zenlous, purchased at Victoria by the Neptune Rowing Club of this city, arrived on the boat, 34 feet in length, 31 feet in beam, and 12 mehes deep-Clinker build. The Zealous has appeared in three contests, two of which she wob. She "takes water" at the Portland Warehouse and Dock Company's wharf this evening, for the first time in our country. The regular monthly meeting of the Neptune Rowing Club was held last evening. The Victoria prize rowing boat Zealons was reboat, under Custom-bouse regulations, much to their dissappointment, but Mr. Scott is quite confident, upon properly representing the thing at Washington, this duty will be remitted. On Monday evening next a special meeting of the Club is to be held at the rooms, to take final action upon an excursion and regatta to take place soon.—Oregon Bulletin , July 11.

SEA OTTER.-The San Francisco Chronicle of July 6th says: Through private intelligence we are credibly informed that large Gov. Trutch. herds of sea otter are to be seen for miles at varies points off the coast of British Columbia and Washington Territory. That the animals frequent those waters is well known, but whether in such large numbers is not so well-suthenticated. The sea otter is one of ing in price from thirty-five to seventy-five dollars. The hides are cured at Leipsic, the principal market, the fur being highly prized by the officers of the Imperial army and the street, next to St. Nicholas Hotel.

ARRIVAL OF THE EXTERPRISE.—The Enter-Langley, New Westminster and Burrard Inlet, with twenty-five passengers, the Cariboo express and mails. She took to Langley a quantity of salt, whence she took hay to the Inlet, and left the latter place at 10 yesterday morning for Victoria. Among the passengers are the following: Messrs. BRITISH COLUMBIA RAFLEDAD .- A late Portand paper writes: Among the passengers by the John L. Stephens there came the following named four gentlemen, of the corps of Civil Engineers on the way to survey a route in British Columbia for the Dominion Overtand Railroad-Messrs, Alfred Selwyn, James Richardson, Benj. Baltzley and John Hammond. They will proceed to Victoria on the California. We learn they have come from Montreal, and are of the Geological Survey of Canada, whose Museum and office are in that city.

CRAIGFLOWER SCHOOL PICNIC .- The annual picnic of this school came off on Saturday. at the Gorge, Victoria Arm. A large number of persons, both from the surrounding country, Esquimalt and Victoria, were present, and the school funds were considerably augmented thereby. The amusements comprised ancing, boat racing, athletic games, etc. The first mentioned was kept up till late, or early next morning.

Queenstown on her second trip across the Atlantic, we made mention a few days ago, had on board 500 bricks, exclusive of the Captain, a sailor, and a dog. Concerning he latter, the New York papers, mindful of the pupprieties of the occasion, have re-marked that his bark is on the sea.

NANAIMO.—The Isabel came in yesterday morning from Nanaimo, with a cargo of coal for use of the North Pacific. The harbor is bare of shipping. Two men were brought down prisoners, and lodged in jail here for trial—one, O'Neil, charged with assault, the other, a Chinaman, for being concerned in the burglary at Mr. Levi's store.

The Situation in Germany.

EDITOR STANDARD: -The German Empire is decidedly a gigantic stride in modern civilization. It was sharp and decisive, marked by brilliant strategy and tactics, and still more wonderful military organization and scientific appliances. The discipline, humanity and heroism it evoked in both combatants and non-combatants in every nationality. The truly Napoleonic changes in the map of Europe. The creation of a new political world out of a midnight chaos of principalities and powers, Lilliputian in size and paralysing in influence. The breaking up of that blundering old federal machine, Bund," which despite of "customs" Zolverein like a juggernant car crushed national pride and its hopes of prosperity were no small virtues. But to have replaced the miserable, idiotic nay criminal subdivision of fatherland and its subjection to foreign influence by a strong, energetic federal gavernment of cilization, and to have given form and body to the dreams of the patriot and to the hopes of the nation; these are some of the undying glories of the new German em-In the rearing of this magnificent edifice we

The ANNUAL REPORT on the Books and Accounts by the Auditor of the Company, certifying that he ha found the whole accounts accurately stated and properly wouched.

BALANCE SHEET of the Company's Affairs, certified by the Auditor and three of the Directors, in accordance with the Acts of Parliament constituting the company.

THE CHAIRMAN requested particular attention to the Report submitted by the Directors, which was the read and from which the following is an extract;

On the present occasion the Board of Directors have not only to give an account of their proceedings during the financial year of the Company's progress, but during the quinquennial period which closed on the 15th Novem 1870.

NEW ASSURANCES EFFECTED from 15th Nov £5,713,813 7 3 iness during the period of £1,142,762 15s. 5d. the first and last years of the p

"The company has thus, it must be admitted, been eminently successful in obtaining new business, evincing the steem in which it is held by the public; but a Report of this nature would be very incomplete were prominece not iven to the Exits as well as the entrances, Death has claimed its usual pictentage of the living and the company as fulfills the object of its institution bymeeting with promptness the claims which were thus made upon its funds.

"The Deaths during the quinquennial period gave rise to the following claims:— £48,603 4 8 46,190 13 6 46,890 17 1 36,649 10 101 42,343 16 1 £314,376 3 10 £1,591,732 0 10

"In transacting all this business, the Directors have to the best of their ability, discharged the responsible duties devolved on them. It can well be imagined that in the acquisition of so much new business, in the dealings with so many accumulated transactions and in the settlement of such a large amount of claims, questions of importance requiring the exercise of cave, judgement, discretion and liberality, have presented themselves and probably the best gauge of the success which has attended the management in these repects is that so little had been heard of the Company has always taken up in liberalising the conditions of the Assurance Contract which has greatly facilitated all these proceedings, but at present they will confine themselves to the simple duty of reporting progress.

"The Directors have only further on this occasion to refer to the Investigation with reference to the Eighth Division of Profits how in progress. They are happy to state that the laborious calculations necessary to ascertain the Company's position have very nearly been completed, but the results have not been placed before them by the Actuary, so that they can make no statement on the subject, but they are glad to have it in their power to state that a few weeks hence the whole will be reported in the most complete manner. These remarks apply to the actuarial results which show the liabilities of the Company. The investigation of the other side of the account, namely: the Assets, has already been completed and a most satisfactory Report made by a Committee of Directors who have examined each security and each document constituting it.

The Chairman then addressed the meeting in congratulatory terms on the position of the Company.

The Report was manimously approved of; and after the election of new Directors and a vote of thanks to the Office-Bearers, the meeting separated.
